Standard Drug Plans

BASIC, STANDARD & ENHANCED OPTIONS

Certain prescription-requiring drugs on the eligible drug benefit list may be subject to quantity maximums, dollar maximums, deductibles, co-payments or other maximums as approved by Medavie Blue Cross.

Certain eligible drugs require prior or ongoing authorization by Medavie Blue Cross to qualify for reimbursement. The reimbursement criteria are established by Medavie Blue Cross and may include requiring the Participant to participate in related patient support programming.

Tiered Formulary: Eligible drug benefits include only medically necessary drugs which by law can only be obtained with a prescription and considered by Medavie Blue Cross to be life-sustaining. Drugs are separated into two tiers with the co-pay varying between the tiers. Drugs selected for the first tier are less expensive drugs, recognized as first line therapy for the treatment of disease, and are used to treat serious medical conditions. Drugs in the second tier are drugs that are usually more expensive, may be used to treat non-life threatening conditions, and are not always considered first line therapy for the treatment of specific diseases. Any eligible medication must be authorized by Medavie Blue Cross and prescribed and dispensed by Medavie Blue Cross Approved Providers.

Conditional Co-payment: Certain Eligible Drugs that would normally be reimbursed at the lower reimbursement level (Tier 2) may be reimbursed at the higher reimbursement level (Tier 1) when established criteria are met. The criteria to be met for Conditional Co-payment are established by Medavie Blue Cross.

Substitution Provision: Mandatory Generic Substitution and Maximum Allowable Cost provisions apply.

GENERAL INFORMATION FOR ALL BENEFITS

ELIGIBLE EMPLOYEES

You are eligible to enrol for benefits if you meet the eligibility requirements outlined in the Schedule of Benefits (see the first page of this booklet).

Employees must elect coverage, within 31 days of becoming eligible, by completing an application. Coverage is effective on the date of eligibility, except when: (a) the employee is not actively at work on the day that coverage would otherwise become effective, or (b) the application is made after the 31 day period.

If not actively at work when you would normally have become eligible, your coverage will commence when you return to work on a full-time basis.

An employee is considered to be actively at work on the effective date if he reports for work at his usual place of employment with the policyholder and is able to perform the regular duties of his occupation on a permanent basis. If an employee is not required to report for work for reasons such as holidays, shift variances, vacations or weekends, he shall be considered to be actively at work as long as he is capable of performing the regular duties of his occupation.

ELIGIBLE DEPENDENTS

Dependents are defined as your legal spouse and children (as described below). Dependent coverage begins for your eligible dependents on the same date as your coverage or as soon as they become eligible dependents if added later.

The term "spouse" refers to the person to whom you are married, or the person that you introduce as your spouse and with whom you have been living in a conjugal relationship for at least one year.

Dependent children, refers to a child or person who:

- is a resident of Canada;
- is the natural or adopted child of you or your spouse, or the child over whom you or your spouse have been court appointed as legal guardian with parental authority;
- is financially reliant on you or your spouse for care, maintenance and support;
- is not married or in a common law relationship; and
- meets one of the following criteria:
 - a) is under age 21;
 - b) is under age 26 and is attending an accredited educational institution, college or university on a full-time basis; or
 - c) became mentally or physically disabled while a child as defined in (a) or (b) and has been continuously disabled since that time.

A child is considered to be mentally or physically disabled for the purposes of this definition if they are incapable of engaging in any substantially gainful activity and are financially reliant on the member for care, maintenance and support due to this disability. The company may require the provision of written proof of a child's disability as often as is reasonably necessary.

GENERAL INFORMATION FOR ALL BENEFITS

EVIDENCE OF HEALTH

Proof of good health is not required if application is made within 31 days of first becoming eligible, with the exception of Optional Group Life benefits for you or your spouse when the Non-Evidence Limit is exceeded. If coverage is not applied for within this 31 day period, evidence may be requested for the employee and his dependents, if any, before benefits commence.

Certain other situations may require the submission of evidence of health before coverage will be approved. The cost of obtaining evidence of health is to be provided at your own expense if you or your dependents do not apply for coverage within 31 days of becoming eligible.

BENEFICIARY DESIGNATION

Any beneficiary designation made under your previous group policy has been carried forward to this policy. You should review the existing designation to ensure it reflects your current intentions.

TERMINATION OF BENEFITS

Coverage for you and your dependents will cease on the earliest of:

- the date you terminate employment
- the date you cease to be eligible due to retirement, death, age limitation, change in classification, etc.
- the termination date of the group contract.

CO-ORDINATION OF BENEFITS

In the event that benefits may be claimed under more than one section of the Health Care Plan, the claim will be assessed in a manner which provides the greatest benefit to the subscriber.

With the exception of Worldwide Travel Benefit provided under the policy, if you are eligible for similar benefits under another group benefit plan the amount payable through this plan shall be co-ordinated with all benefit plans and will not exceed 100% of the eligible expense. Where both spouses of a family have coverage through their own employer benefit plans, the first payer of each spouse's claim is their own employer's plan. Any amount not paid by the first payer can then be submitted for consideration to the other spouse's benefit plan (the second-payer).

Benefit payments will be co-ordinated with any other plan or arrangement, in accordance with the Canadian Life and Health Insurance Association (CLHIA) guidelines, so that the total amount received from all sources will not be greater than the actual expense incurred.

Payment for Worldwide Travel Benefit provided under this policy is limited to amounts that are in excess of coverage provided by any other plan(s), as specified in the Worldwide Travel Benefit Exclusions.

GENERAL INFORMATION FOR ALL BENEFITS

Continuation of coverage during this leave of absence ends on the earlier of the date you were scheduled to return to work, the date you return to active full-time employment, the policy is terminated or at the end of the maximum period under applicable legislation.

GRADED CRITICAL CONDITIONS

LIVING BENEFIT

This benefit will be paid in a lump-sum payment to you if you or your covered dependents are afflicted with a critical condition. You must provide medical evidence satisfactory to Blue Cross Life within 365 days following the end of the benefit waiting period.

The aggregate amount payable for a covered condition with a graded benefit schedule will not exceed 100% of the amount of coverage in force. An insured individual who received payment at the lesser amount of the graded benefit schedule can apply to receive the balance of the principle sum provided coverage remains in force and the criteria for payment at the 100% benefit level is met.

The benefit amount will be paid once for any covered condition resulting from the same or related illness or disease. Multiple unrelated occurrences will be covered, so long as all payments combined do not exceed the lifetime maximum allowable amount. The lifetime maximum amount payable for all critical conditions is two times the amount shown in the Schedule of Benefits.

PRESCRIPTION DRUG COVERAGE - ALL OPTIONS

Please refer to the Schedule of Benefits page to determine if the drug benefit is on a direct-payment or reimbursement basis, the payment features, and the benefit list applicable to this plan.

Certain prescription-requiring drugs on the eligible drug benefit list may be subject to quantity maximums, dollar maximums deductibles, co-payments or other maximums as approved by Medavie Blue Cross.

MANDATORY GENERIC SUBSTITUTION

You may request a higher cost interchangeable drug; however, you will be responsible for paying the difference in cost between the interchangeable drugs. For participants with an adverse reaction to the interchangeable drug dispensed, Medavie Blue Cross will consider reimbursement to another interchangeable drug on a case by case basis only, through the defined exception process once your physician has submitted a side effect reporting form to Health Canada.

MAXIMUM ALLOWABLE COST

In addition to Mandatory Generic Substitution, Medavie Blue Cross will only reimburse to the most cost effective drug cost within a therapeutic category. Minimum Requirements for Drug Coverage in Quebec

This provision applies to Quebec Participants.

Act Respecting Prescription Drug Insurance

The group plan must be administered in accordance with the Act Respecting Prescription Drug Insurance (“the Act”) for Quebec Participants, including the Act’s provisions about maximum coinsurance, out-of-pocket maximums, eligible drugs, exception drugs and eligible pharmacy services.

Under no circumstances will the exclusions and limitations provision of this benefit render drug benefit coverage for Quebec participants less generous than the basic prescription drug insurance plan established by the Act.

Out-of-pocket Maximum per Calendar Year

If, in any calendar year, a member spends more than the maximum contribution amount established by the RAMQ on eligible expenses for themselves or their dependents, the amounts in excess of the maximum contribution amount will be reimbursed by Blue Cross at a rate of 100% until the end of that calendar year. The contribution amount includes the deductible, amounts in excess of the reimbursement level or co-payment, if applicable.

Participants Age 65 Years and Over

At age 65, a Quebec participant is automatically registered as a beneficiary of the RAMQ public drug plan. Therefore, on reaching age 65, a Quebec participant must decide whether to:

- cancel their automatic registration with the RAMQ drug plan in order to continue their coverage under this benefit; or
- accept coverage under the RAMQ public drug plan.

The decision to cancel the automatic registration with RAMQ is revocable.

The decision to accept coverage under the RAMQ public drug plan is irrevocable.

For Quebec participants who decide to accept coverage under the RAMQ public drug plan the following expenses are eligible under this benefit:

- the deductible and coinsurance paid by the Quebec participant under the RAMQ public drug plan; and
- reimbursement for any eligible drug that is not included in the RAMQ public drug plan but is covered under this benefit, subject to the deductible and reimbursement level specified in the Schedule of Benefits.

If the member decides to join the RAMQ public drug plan, the member’s dependents must also register with the RAMQ public drug plan.

If a Quebec participant decides to maintain coverage under this benefit, Blue Cross reserves the right to modify the premium rates applicable to this benefit for any Quebec participant age 65 and over.

HEALTH CARE BENEFITS

EXCEPTIONS AND LIMITATIONS

Health Care Benefits will not be payable for charges in connection with the following:

- convalescent, custodial or rehabilitation services
- conditions not detrimental to health
- services or supplies normally provided without cost or at nominal cost by the participant's government health plan
- benefits the participant receives or is entitled to receive from Workers' Compensation

This conversion privilege is also available to the surviving spouse and/or dependents in the event of your death.

Quebec Participants who are no longer eligible for drug benefit coverage cannot convert their group drug coverage to an individual plan. If they are not eligible under another group plan, they must contact the Régie de l'assurance maladie du Québec (RAMQ) to obtain coverage from the RAMQ's public drug plan.

HOW TO MAKE A CLAIM

Optional Accidental Death and Dismemberment: must be received by Blue Cross Life within one (1) year after the loss. If the claim is the result of a death, the claim should be made as soon as possible after the death occurred.

SALARY CONTINUANCE

DISABILITY

To be eligible for this benefit, you must be under the continuing care of a physician for the period of the disability, which normally commences with your first visit to a doctor. As an insured employee, you will be considered disabled and entitled to Salary Continuance disability payments if, as a result of sickness or accident you are unable to perform the regular duties of your own occupation and are not engaged in any occupation or employment for wage or profit.

Regular duties are defined as the essential tasks or actions you are required to perform as part of the occupation. You cannot be working other than in a partial disability or rehabilitation program approved by the company.

RECURRENT DISABILITY

Successive periods of disability separated by less than two consecutive weeks of permanent employment, will be considered one period of disability, unless the subsequent disability is due to an accident or sickness entirely unrelated to the cause of the previous disability and commences after return to permanent employment.

ELIMINATION PERIOD

The elimination period is the continuous period of time which you must wait from the onset of the disability before Salary Continuance benefit payments begin.

REHABILITATION PROGRAM

An employee may, at any time, be required to enter, engage or comply with a Rehabilitation Program, which the company deems appropriate for his circumstances.

A Rehabilitation Program shall mean a program of medical, employment or vocational rehabilitation deemed appropriate by the company. It shall consist of:

1. any medical care or treatment, diagnostic measures or any medication prescribed, or
2. full-time work, part-time work, volunteer work or any other employment for an employee, whether or not wages or remuneration are payable, or
3. any vocational assessment training or re-training program or period of work for the purpose of rehabilitation.

Benefits payable under this policy while an employee is participating in a Rehabilitation Program will be co-ordinated in accordance with integration of benefits.

Refusal to enter, participate or comply with a Rehabilitation Program will result in the termination of Salary Continuance disability benefit payments.

SALARY CONTINUANCE

INTEGRATION OF BENEFITS

The amount of Salary Continuance disability benefit will be reduced by the amount of payments you are entitled to receive from any of the following:

- any workers' compensation board/commission,
- any disability payments from the Canada/Quebec Pension (CPP/QPP) Plan, or
- any provincial automobile insurance plan, provided they are deemed acceptable limitations under the Employment Insurance Premium Reduction Regulation.

In the event you are required to apply or have applied for any of the above and have not received notice, the plan will estimate your benefits until they receive written notice that your application has been declined.

If you are in receipt of CPP Retirement Benefits during your disability, you may be required to convert your CPP/QPP Retirement Benefits to CPP/QPP Disability Benefits if eligible.

During an approved rehabilitation program, the amount of Salary Continuance disability benefit payments will be reduced by 50% of the income received from the rehabilitative employment and if necessary, will further be reduced so that the total amount of income and benefits received does not exceed 100% of pre disability earnings.

SALARY CONTINUANCE

EXCLUSIONS AND LIMITATIONS

Salary Continuance disability benefits are not payable for any of the following:

1. any period of disability during which you are not under the continuing care of a physician or surgeon legally licensed to practice medicine,
2. any period of disability directly or indirectly related to the committing of or the attempt to commit a criminal offence,
3. an accident occurring while operating a motor vehicle either while under the influence of any intoxicant or with a blood alcohol level in excess of the legal limit in the jurisdiction where the accident occurred. (Vehicle means any form of transportation which is drawn, propelled or driven by any means and includes but is not restricted to an automobile, truck, motorcycle, moped, ATV, bicycle, snowmobile, boat or any recreational vehicle),
4. any period during which you are absent from work due to imprisonment in a correctional facility, community residence or while under house arrest by order of a criminal court,
5. any disability due to or resulting from insurrection, war (declared or not) or the hostile actions of the armed forces of any country, or the participation in any riot or civil commotion,
6. any period during which you are absent from Canada due to any reason unless the company agrees in writing, in advance, to pay benefits during the period,
7. any period of disability during which you do not make reasonable efforts to recover from the disability, including participating in any appropriate treatment or rehabilitation program. This determination will be made by Blue Cross,
8. any medical care or treatment that is performed for cosmetic purposes only, unless it is required as a result of an illness or accident,
9. if you become disabled while on strike, lockout or lay-off,
10. during the period in which you receive maternity, parental or compassionate care benefits under any provincial or federal law or take maternity, parental or compassionate care leave in accordance with any provincial or federal law, subject to the following exception:
 - benefits will be payable during the health-related portion of the maternity leave, provided coverage has been retained for you and the Salary Continuance waiting period has been completed. The health-related portion of the maternity leave will be considered to be the normal post-natal recovery period deemed reasonable and appropriate by Blue Cross,
11. any disability due to or resulting from any cause for which indemnity or compensation is provided under any Workers' Compensation law or other legislation of similar purpose,
12. any period of disability during which you do not accept any reasonable offer of modified duties or alternative employment from the employer,
13. to any claimant who is terminated, provides notice of retirement or resignation effective as of the date of the termination, retirement or resignation.

SALARY CONTINUANCE

CONTINUATION OF COVERAGE DURING A LEAVE OF ABSENCE

During an approved leave of absence for a maternity leave, parental leave, compassionate care leave or other statutory leave your coverage continues by the payment of premiums up to a maximum period provided under any applicable legislation. Continuation of coverage during this leave of absence ends on the earlier of the date you were scheduled to return to work, the date you return to active full-time employment, the policy is terminated or at the end of the maximum period under applicable legislation.

During any other approved leave of absence your coverage continues by the payment of premiums up to a maximum period of 12 months. Continuation of coverage during a leave of absence ends on the earlier of the date you were scheduled to return to work, the date you return to active full-time employment, the policy is terminated or at the end of the 12 month period.

If you become totally disabled during a leave of absence from work where disability coverage has been discontinued, no disability benefit will be payable.

If you become totally disabled during a leave of absence from work during which disability coverage has been retained and premiums have been paid:

- the elimination period will begin on the onset of total disability;
- the benefit period will be deemed to begin on expiry of the elimination period; and
- benefit payments will begin on the later of the expiry of the elimination period or the date you were scheduled to return to work.

WHEN AND HOW TO MAKE A CLAIM

To make a claim, complete the notice of claim for Disability Benefits that is available from your employer.

We must receive written notice of claim on the earlier of the following dates:

- within 90 days immediately following the end of the elimination period,
- within six (6) months of the termination of this Salary Continuance disability coverage.

LONG TERM DISABILITY INSURANCE

DISABILITY

To be eligible for this benefit, you must be under the continuous care of a physician. Blue Cross Life defines total disability as:

- a) The complete and continuous inability of the insured employee to perform the regular duties of his own occupation as a result of illness or injury for the first 24 months; and
- b) Thereafter, “total disability” means a state of continuous incapacity, resulting from illness or injury, which wholly prevents the insured employee from performing the regular duties of any occupation for which he:
 - would earn 60% or more of his pre-disability earnings; and
 - is reasonably qualified, or may so become, by training, education or experience.

Regular duties are defined as the essential tasks or actions you are required to perform as part of the occupation. You cannot be working other than in a partial disability or rehabilitation program approved by the company. If you engage in any business or occupation except in a rehabilitation program you will be deemed to no longer be disabled.

The availability of such occupations, jobs or work will not be considered while assessing the employee’s total disability.

The loss of a professional or occupational license or certification does not, in itself, constitute total disability.

PARTIAL DISABILITY

To be considered partially disabled and eligible to receive benefits under this provision, you must meet the definition of total disability throughout the elimination period and must qualify for Long Term Disability benefits.

If, following the commencement of Long Term Disability benefits, you are only capable of returning to the workforce in a reduced capacity and are not engaged in an approved rehabilitation program, you may continue to be eligible to receive a portion of your Long Term Disability benefits in addition to regular earnings for a period of time deemed appropriate by the company, subject to the provisions under this section.

The amount of monthly Long Term Disability benefit to which you are entitled to receive will be reduced by 50% of all wages or remuneration payable from any employer or from self-employment. Benefits will further be reduced so that income from all sources does not exceed 100% of pre-disability earnings.

RECURRENT DISABILITY

Successive periods of total disability occurring while this coverage is in force will be considered to be one period of total disability as long as you become totally disabled from the same or related causes for which your claim for Long Term Disability was previously approved by Blue Cross Life and the intervals of total disability have not been separated by a period longer than six months.

LONG TERM DISABILITY INSURANCE

REHABILITATION PROGRAM

An employee may, at any time, be required to enter, engage or comply with a Rehabilitation Program, which the company deems appropriate for his circumstances.

A Rehabilitation Program shall mean a program of medical, employment or vocational rehabilitation deemed appropriate by the company. It shall consist of:

1. any medical care or treatment, diagnostic measures or any medication prescribed, or
2. full-time work, part-time work, volunteer work or any other employment for an employee, whether or not wages or remuneration are payable, or
3. any vocational assessment training or re-training program or period of work for the purpose of rehabilitation.

Benefits payable under this policy while an employee is participating in a Rehabilitation Program will be co-ordinated in accordance with integration of benefits.

Refusal to enter, participate or comply with a Rehabilitation Program will result in the termination of Long Term Disability benefit payments.

ELIMINATION PERIOD

The benefit elimination period is the period of time which you must wait from the onset of the total disability before the insurer begins paying Long Term Disability benefits.

When the total disability is not continuous, the days you meet the definition of total disability may be accumulated to satisfy the elimination period, provided coverage remains in force during the accumulation of the elimination period, no interruption is longer than 14 days, disabilities are due to the same or related causes and each period of total disability is completed within 18 months after the start of the elimination period, or as pre-approved by Blue Cross Life if longer.

PRE-EXISTING CONDITIONS (24-12)

A pre-existing condition means a sickness or injury for which you received medical treatment, consultation, care or services (including diagnostic measures) or have been prescribed medication, during the twenty four (24) months immediately prior to the effective date of Long Term Disability coverage.

Long Term Disability benefits are not payable for any disability caused by or resulting from a pre-existing condition unless the disability begins after 12 consecutive months of active employment from your effective date of Long Term Disability coverage.

LONG TERM DISABILITY INSURANCE

INTEGRATION OF BENEFITS

Monthly benefits are co-ordinated with other income payments to which you become entitled as a result of the current disability. The benefit co-ordination is applied as follows:

1. The amount of monthly Long Term Disability benefit is first reduced directly by any disability benefits available under the Canada or Quebec Pension plan (primary benefits only), the workers' compensation board/commission and any Canada or Quebec Pension plan retirement benefits.

If you are in receipt of CPP Retirement Benefits during your disability, you may be required to convert your CPP/QPP Retirement Benefits to CPP/QPP Disability Benefits if eligible.

2. The amount of monthly Long Term Disability benefit is further reduced as necessary, so that the amount of monthly income from all sources does not exceed 85% of your Pre-Disability net earnings. Income from all sources includes:
 - a) Blue Cross Short Term and Long Term Disability benefits,
 - b) any benefit payable to you under the workers' compensation board/commission,
 - c) any disability benefits under the Canada/Quebec Pension plan,
 - d) any retirement benefits payable to you under the Canada/Quebec Pension plan,
 - e) any retirement income or benefits payable under any group program provided by or through the employer,
 - f) any income or benefits payable under a plan sponsored by an association, union or fraternal organization of which you are a member for which the employer contributes the premiums of such plan,
 - g) any income or benefits payable under any plan of automobile insurance, where such reduction is not prohibited by law, or is not required to be reimbursed to the auto insurer,
 - h) any wage or remuneration payable from any employer or from self-employment, other than those received under an approved rehabilitation program,
 - i) any damages for loss of income recovered from a third party and arising out of the same circumstances that caused your disability and
 - j) any continuation of salary, paid sick leave or Salary Continuance benefits from your employer.
3. During an approved rehabilitation program, the amount of monthly Long Term Disability benefit payments will be reduced by 50% of the income received from the rehabilitative employment and if necessary, will further be reduced so that the total amount of income and benefits received does not exceed 100% of pre disability earnings.

Canada/Quebec Pension plan Freeze

Once the initial CPP/QPP offset has been established on a Long Term Disability claim, it will not be changed due to cost-of-living adjustments to the CPP/QPP payments.

LONG TERM DISABILITY INSURANCE

EXCLUSIONS AND LIMITATIONS

Long Term Disability benefits are not payable for any of the following:

1. any period of total disability during which you are not under the continuing care of a physician or surgeon legally licensed to practice medicine,
2. any period of total disability directly or indirectly related to the committing of or the attempt to commit a criminal offence, or provoking an assault, regardless of whether charges are laid or a conviction obtained,
3. any accident or injury occurring while operating a motor vehicle either while under the influence of any intoxicant or with a blood alcohol level in excess of the legal limit in the jurisdiction where the accident occurred. (Vehicle means any form of transportation which is drawn, propelled or driven by any means and includes but is not restricted to an automobile, truck, motorcycle, moped, ATV, bicycle, snowmobile, boat or any recreational vehicle),
4. any period during which you are absent from work due to imprisonment in a correctional facility, community residence or while under house arrest or by order of a criminal court,
5. any total disability due to or resulting from insurrection, war (declared or not) or the hostile actions of the armed forces of any country, or the participation in any riot or civil commotion,
6. any period during which you are absent from Canada due to any reason, unless the company agrees in writing in advance to pay benefits during the period,
7. any period of total disability during which you do not make reasonable efforts to recover from the total disability, including participation in any appropriate treatment or rehabilitation program. This determination will be made by Blue Cross,
8. any total disability resulting from or associated with medical care which is not medically necessary or is performed for cosmetic purposes only,
9. if you become disabled while on strike, lockout or lay-off,
10. during the period in which you receive maternity, parental or compassionate care benefits under any provincial or federal law or take maternity, parental or compassionate care leave in accordance with any provincial or federal law,
11. any period of total disability during which you do not accept any reasonable offer of modified duties or alternative employment from the employer,
12. any period during which you are eligible for an employer sponsored short term disability plan.

LONG TERM DISABILITY INSURANCE

WAIVER OF PREMIUM

If you qualify for Long Term Disability benefits, any premium due under this benefit will be waived commencing with the first full calendar month following the end of the elimination period. Premiums will be waived until you return to active permanent employment or no longer qualify for benefits.

CONTINUATION OF COVERAGE DURING A LEAVE OF ABSENCE

During an approved leave of absence for a maternity leave, parental leave, compassionate care leave or other statutory leave your coverage continues by the payment of premiums up to a maximum period provided under any applicable legislation. Continuation of coverage during this leave of absence ends on the earlier of the date you were scheduled to return to work, the date you return to active full-time employment, the policy is terminated or at the end of the maximum period under applicable legislation.
